and
WILLIAM C. PAETOW II

Application 10/023,333

ORDER RETURNING UNDOCKETED APPEAL TO EXAMINER

This application was received electronically at the Board of Patent Appeals and Interferences on April 4, 2007. A review of the application has revealed that the application is not ready for docketing as an appeal.

Accordingly, the application is herewith being electronically returned to the examiner. The matters requiring attention prior to docketing are identified below:

An examination of the Image File Wrapper (IFW) reveals that an Appeal Brief was filed on January 26, 2006.

37 CFR § 41.37(c)(1) (2005) reads as follows:

(c)(1) The brief shall contain the following items under appropriate headings and in the order indicated in paragraphs (c)(1)(i) through (c)(1)(x) of this section, except that a brief filed by an appellant who is not represented by a registered practitioner need only substantially comply with paragraphs (c)(1)(i) through (c)(1)(iv) and (c)(1)(vii) through (c)(1)(x) of this section:

. . . .

(v) *Summary of claimed subject matter.* A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

The “Summary of the claimed subject matter” appearing on pages 2-4 of the Appeal Brief filed January 26, 2006 is deficient because it does not map the independent claims to the specification. See § 1205.03(B) of the Manual of Patent Examining Procedure (MPEP) (Eighth Edition, Rev. 3, August 2005) which states:

(B) When the Office holds the brief to be defective solely due to appellant's failure to provide a summary of the claimed subject matter as required by 37 CFR 41.37 (c)(1)(v), an entire new brief need not, and should not, be filed. Rather, a paper providing a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v) will suffice. Failure to timely respond to the Office's requirement will result in dismissal of the appeal. See MPEP § 1215.04 and § 711.02(b).

Correction is required.

In addition, MPEP § 1207.01 states:

On the examiner's answer, below the primary examiner's signature, the word "Conferees:" should be included, followed by the typed or printed names of the other two appeal conference participants. These two appeal conference participants must place their initials next to their name. This will make the record clear that an appeal conference has been held. [Emphasis added.]

The Examiner's Answer mailed March 1, 2006 does not comply with the above requirement because only the initials of the second conferee appear after the word "Conferees." Correction is required.

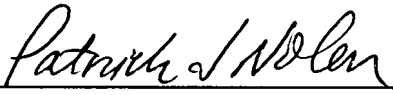

Accordingly, it is

ORDERED that the application is returned to the Examiner:

1) for notification to appellants to submit a paper providing a revised "Summary of claimed subject matter";

- 2) for consideration of said paper;
- 3) for submission of a revised Examiner's Answer which takes corrective action regarding the appeals conference; and
- 4) for such further action as may be appropriate.
